

New Planet Drop Down Seals

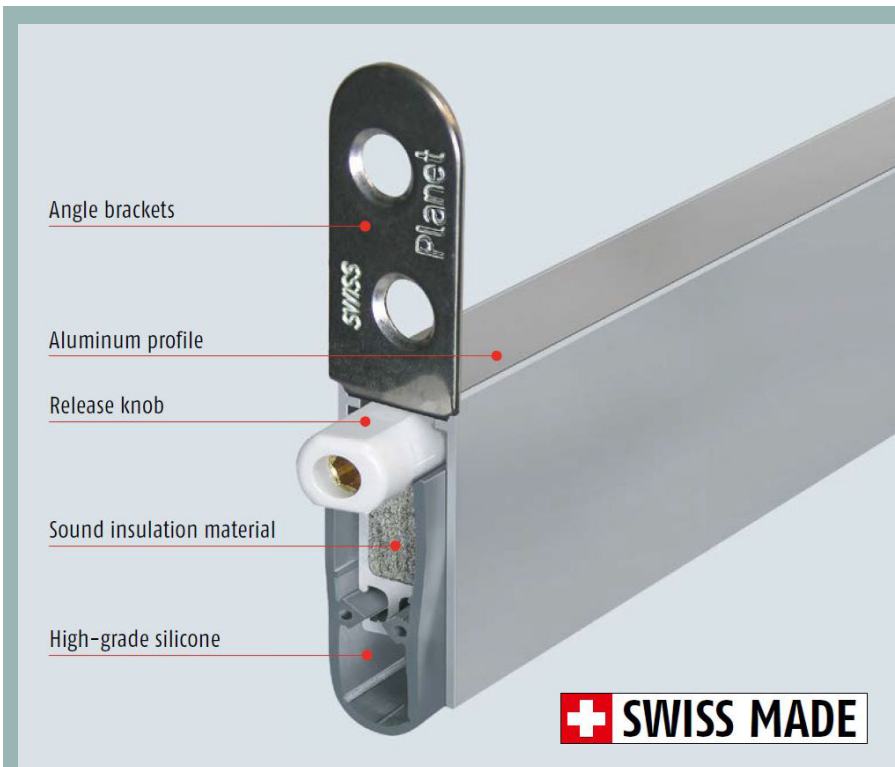

ASSA ABLOY

Experience a safer
and more open world

ASSA ABLOY SA is proud to announce the introduction of a new product to the market – Drop Down Seals.

Drop down seals are designed to protect homes and businesses from smoke and fire, improve insulation and temperature management, prohibit weather elements to enter the house such as dust, sand and rain water as well as keeping out pests.

The drop down seals are morticed into the bottom of the door, when the door is closed the drop down seal is engaged and drops down to seal the gap between the bottom of the door and the floor. The drop down seals are specifically designed for all floor surfaces and can even work on uneven floor surfaces.

Applications include:

- Timber doors
- Aluminium doors
- Glass doors

Dropdown seals fit all types of openings, swing, sliding, folding and stacking as well as pivot doors.

The illustration below shows a door with and without a Planet drop down seal. A Planet drop down seal closes the gap under the door. Light, noise, draught etc. will be stopped.

The door manufacturer grooves the bottom of the door

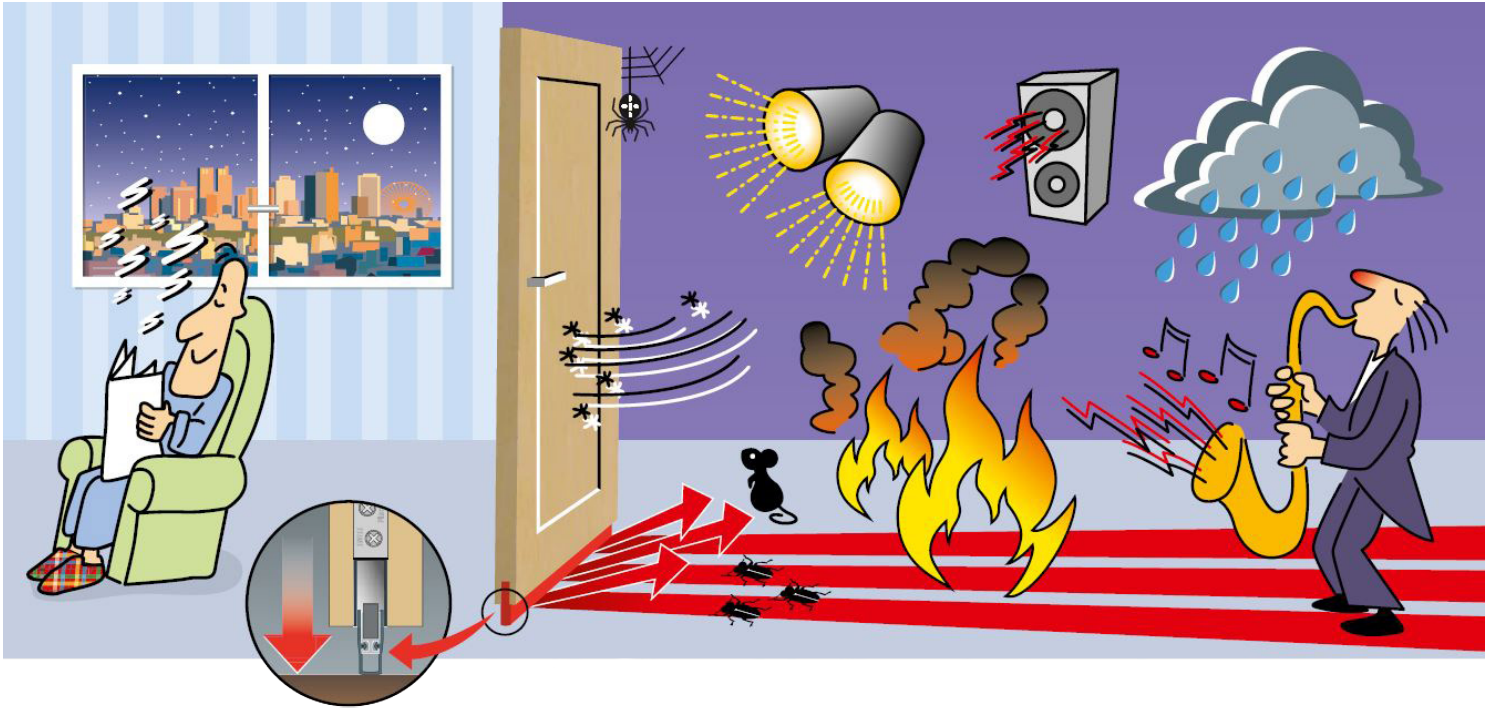

The drop-down seal is inserted into groove and fastened with angle brackets and screws

The door has to be assembled and the drop-down seal adjusted – so easy!

Planet seals protect buildings in multiple ways

Safety Features:

Soundproof; suitable for acoustic rated doors

Smokeproof; suitable for smoke-shielding doors
